February 22nd, 2013

Dear Dr. Lynne McNamara,

It is a great pleasure for Ho Chi Minh City University of Technology to be one of selected universities in Vietnam to join the follow-up research conducted by Vietnam Education Foundation (VEF). In 2006, the initial research which has had great impact was undertaken at two faculties of Computer Science & Engineering and Electrical-Electronic Engineering, Ho Chi Minh City University of Technology. VEF assessment has worked as the guidelines for the two faculties of Computer Science and Engineering and Electrical – Electronic Engineering during the past 7 years.

Ho Chi Minh City University of Technology is honored to know that 4 fields including Computer Science & Engineering, Electrical – Electronic Engineering, Civil Engineering and Transportation Engineering are selected for the follow-up research. Besides, Ho Chi Minh City University of Technology would like to recommend two more fields of Physics (Applied Science Faculty) and Environmental Science (Environment Faculty) be included in the research since these two fields have been gaining tremendous recognition and achievements.

Ho Chi Minh City University of Technology is looking forward to the research activities and its fruitful results which might bring about impactful changes.

Yours faithfully, *Vu Dinh Thanh*

Prof. Vu Dinh Thanh

Rector
