Subject: Observations on the Current Status of Higher Education in Agricultural Sciences, Computer Science, Electrical Engineering, and Physics at Select Universities in Vietnam.
Attachments: VEF Follow-up Research Project Proposal as of July 30, 2012.docx

Dear Lynne:

This is to confirm that we fully agree with and support the Vietnam Education Foundation (VEF) in its efforts to conduct the important follow-up research project entitled ***Observations on the Current Status of Higher Education in Agricultural Sciences, Computer Science, Electrical Engineering, and Physics at Select Universities in Vietnam.***

This is a follow-up study on the two VEF research reports: (1) *Observations on Undergraduate Education in Computer Science, Electrical Engineering, and Physics at Select Universities in Vietnam*, published in August 2006; and (2) *Observations on the Current Status of Education in the Agricultural Sciences in Vietnam*, published in January 2007.

Based on MOET's request and the needs of Vietnam, VEF will add additional fields to your follow-up research project: (a) civil engineering, (b) environmental sciences, and (c) transport and communication.

We understand that there is no financial obligation on the part of the U.S. Embassy for this project.

Sincerely,
Michael Turner
Deputy Public Affairs Officer
U.S. Embassy Hanoi
